

Music Theory and Ear Training Best Fit Assessment

The Music Theory and Ear Training Best Fit Assessment for incoming CU Denver MEIS Department students is used to advise students about which music theory and ear training/sight singing classes to take during their first semester. *We encourage students not to study for this exam as it will be best to take it without any practice for placement purposes.*

- *Make sure you use Google Chrome or Firefox for your web browser when taking the assessment, as many students have reported problems when using Safari.*
- Also, note that we automatically receive your assessment results, so you do not need to report them to us.
 - You will receive an email concerning your best fit about a week after completing the assessment.
- Finally, feel free to reach out to MEIS faculty member Evan Shelton at evan.shelton@ucdenver.edu if you have any questions.

You can find a link to the assessment below:

Music Theory & Ear Training Best Fit Assessment

For Fall 23: Complete upon acceptance into to a MEIS program, or by August 11, 2023 deadline.
